Available for remote & hybrid

PROFESSIONAL SUMMARY

Technology leader and entrepreneur with **12+ years of experience** in software engineering, system architecture, and digital transformation across industries including **fintech, insurance, aviation, and e-commerce**. Proven track record building scalable platforms from the ground up, leading cross-functional teams, and driving measurable business outcomes.

Currently serving as **CTO & Co-Founder of Closevibe**, an AI-powered conversational commerce platform, while simultaneously holding a **Senior Technical Lead** position at CaixaBank Tech. Deep expertise in **microservices architecture, cloud infrastructure (AWS/GCP), AI/RAG systems, and full-stack development** across Java, Python, TypeScript, and React ecosystems.

Passionate about leveraging emerging technologies, particularly **LLMs, conversational AI, and intelligent automation**, to solve complex business problems at scale.

PROFESSIONAL EXPERIENCE

Closevibe, S.L. · Tarragona, Spain

Bellvei, Tarragona | Spain | closevibe.com

CTO & Technical Co-Founder

Nov 2025 ■ Present

- Co-founded and architected a **multi-tenant conversational AI platform** automating e-commerce sales and customer service across WhatsApp Business API, Messenger, and Email.
- Designed a **RAG-based agent system** with dynamic intent detection, semantic vector search (pgvector), and real-time conversation orchestration serving multiple concurrent clients.
- Built the entire technology stack end-to-end: **Python/FastAPI backend, React frontend, PostgreSQL with pgvector**, deployed on GCP and Railway with Docker containerization.
- Integrated Meta Business APIs (WhatsApp, Instagram, Messenger), **n8n workflow automation**, and third-party e-commerce platforms for seamless client onboarding.
- Led technical client engagements, delivered solution architecture proposals, and managed a **€35K+ services pipeline** for enterprise customers.
- Evaluated and optimized multi-model LLM costs across Anthropic Claude, OpenAI, Google Gemini, DeepSeek, and Mistral for Spanish-language use cases.

Stack: *Python, FastAPI, React, TypeScript, Node.js, PostgreSQL, pgvector, Docker, GCP, Railway, n8n, WhatsApp Business API, Meta APIs, RAG, LLMs, Langchain*

CaixaBank Tech · Barcelona, Spain

Barcelona | Spain

Senior Technical Lead

Oct 2024 ■ Present

- Leading the design and development of **responsive web interfaces** using React.js for one of Spain's largest financial institutions.
- Architecting and developing **Java/Spring Boot microservices** within a large-scale distributed event-driven system powered by Kafka.
- Collaborating with cross-functional squads (design, product, QA) to deliver **high-quality financial products** following strict compliance and security standards.
- Driving **code quality initiatives** through comprehensive testing strategies (JUnit, Jest, Cypress) and CI/CD pipeline optimization.
- Conducting **technical interviews** for Full Stack Developer candidates using structured evaluation frameworks.

Stack: *Java, Spring Boot, Spring Cloud, React, Kafka, Oracle, PostgreSQL, Jest, Cypress, Maven, Git*

Sttok · Remote, Spain

Remote | Spain

Fractional CTO / External Tech Lead & Strategic Consultant

Nov 2024 ■ Feb 2025

- Led **strategic technology decisions and architecture redesign** to support scaling from 50K to 250,000+ active users.
- Directed the **complete AWS migration**: infrastructure provisioning, CI/CD pipelines, Cognito-based authentication, and VPC networking.
- Delivered **production-ready cost analysis and TCO projections** using AWS pricing tools, reducing projected infrastructure spend by 30%.
- Consulted on **MongoDB Atlas performance tuning**: indexing strategies, ESR rule enforcement, and advanced Atlas Search optimization.
- Established **monitoring and alerting frameworks** in MongoDB Atlas for predictive diagnostics and SLA compliance.

Stack: *AWS (EC2, S3, Cognito, VPC, CloudWatch), MongoDB Atlas, CI/CD, Node.js*

Flyr · Remote, Spain

Remote | Spain

Lead Engineer & Frontend Architect

Mar 2023 ■ Sep 2025

- Led the **frontend architecture for white-label airline applications** deployed for FlyArystan, HKExpress, JSX, and PlusUltra.
- Defined a **modular, component-driven architecture** enabling rapid deployment of new airline brands with shared core libraries.
- Implemented **micro-frontend strategies** to decouple brand-specific UIs, enabling independent deployment cycles.
- Integrated with **airline reservation systems**, disruption management platforms, and multi-channel communication services.
- Achieved a **60% reduction in time-to-market** for onboarding new airline clients by streamlining development and deployment workflows.

Stack: *React, TypeScript, Micro-frontends, REST APIs, CI/CD, Git*

FIATC Seguros · Barcelona, Spain

Barcelona | Spain

Fractional CTO / External Tech Lead & Strategic Consultant

Jan 2023 ■ Oct 2024

- Acted as **fractional CTO** for internal digital transformation within one of Spain's established insurance companies.
- Led the **complete redesign and migration** of the internal intranet platform to Liferay, replacing a legacy CMS with a scalable solution.
- Directed **vendor evaluations, technical audits, and roadmap planning** for legacy system modernization.
- Mentored internal teams in **agile practices, CI/CD automation, and DevOps culture** implementation.
- Aligned strategic technology objectives directly with **C-level business stakeholders**.

Stack: *Liferay, Java, CI/CD, Docker, Agile/Scrum*

Amaris Consulting · Barcelona, Spain

Barcelona | Spain

Full Stack Developer / Project Manager

May 2021 ■ Oct 2024

- Delivered **end-to-end application development** and technical consulting for enterprise clients across diverse sectors.
- Led development, maintenance, and **migration of legacy systems** to modern Java, Spring, Angular, and React stacks.
- Managed **project planning, budgeting, and delivery** for cross-functional teams using Agile/Scrum methodologies.
- Designed and integrated **RESTful APIs** connecting internal systems with third-party services and data platforms.

Stack: *Java, Spring, Angular, React, Oracle, PostgreSQL, MySQL, HBase, AWS, Jest, Cypress, Jira*

ISERN Patentes y Marcas · Barcelona, Spain

Barcelona | Spain

Software Engineer

Jul 2018 ■ May 2021

- Designed and developed **IsernTools**, a comprehensive web-based management platform for the intellectual property sector.
- Built an **AI-powered document similarity detector** in collaboration with UPC (Polytechnic University of Catalonia).
- Automated **bulletin ingestion pipelines** for downloading, parsing, and loading official patent bulletins into the database.
- Developed a SOAP/REST client to consume **Spanish Patent Office (OEPM)** web services.

Stack: *Java EE, Spring Boot, Spring Security, JPA-Hibernate, jQuery, MySQL, Intersystems Caché, BIRT, SOAP/REST, Git*

Indra · Montevideo, Uruguay

Montevideo | Uruguay

Full Stack Developer

Jul 2016 ■ Jun 2018

- Developed the **InGRID MDM platform** for management and estimation of electrical measurements deployed nationally in Uruguay.
- Implemented **Big Data processing pipelines** using Hadoop/MapReduce/HBase on Cloudera for high-volume utility data.
- Built **REST APIs** for inventory data exchange with external client systems.
- Maintained code quality through automated testing and **process optimization** initiatives.

Stack: *Hadoop, MapReduce, HBase, Spring Boot, JPA-Hibernate, Oracle, PostgreSQL, JavaScript, BIRT*

Universidad de las Ciencias Informáticas · Havana, Cuba

Havana | Cuba

QA Tester

Sep 2014 ■ Jul 2016

- Designed and executed **functional test plans and test cases** for university-developed software projects.
- Implemented **automated testing frameworks** using Selenium and JMeter for regression and performance testing.

Stack: *Selenium, JMeter, JUnit, Linux, Redmine*

Universidad de las Ciencias Informáticas · Havana, Cuba

Havana | Cuba

Software Developer

Sep 2012 ■ Aug 2014

- Developed **component management tools** (services and dependencies) within the XAUCE business framework.
- Built web interfaces using **PHP, JavaScript, and ExtJS** for internal university platforms.

Stack: *PHP, JavaScript, HTML5, CSS3, ExtJS*

EDUCATION & TRAINING

Computer Science Engineer | Informatics Engineering
Universidad de las Ciencias Informáticas, Havana, Cuba | 2009 ■ 2014

Master's Degree in Big Data with Python
Escuela Superior de Informática CIPSA, Barcelona, Spain | 2019 ■ 2020

Master's Degree in Java EE
Escuela Superior de Informática CIPSA, Barcelona, Spain | 2018 ■ 2019

Cloud Administration (Azure, AWS, Google Cloud)
Amaris Consulting, Barcelona, Spain | 2022 ■ 2023

LANGUAGES

Spanish ■ Native | **English** ■ B2 (Reading/Listening/Speaking/Writing)

TECHNICAL SKILLS

Languages & Core

Java | JavaScript | TypeScript | Python | PHP | HTML5 | CSS3 | SQL | Bash

Backend Frameworks

Spring Boot | Spring Cloud | Spring Security | Spring MVC | FastAPI | JPA-Hibernate | Maven | Quartz

Frontend Frameworks

React.js | Angular | Next.js | jQuery | Bootstrap | Tailwind CSS | Framer Motion | ExtJS

AI / Machine Learning

RAG Architecture | LLM Integration | Langchain | pgvector | Prompt Engineering | Intent Detection | NLP | Semantic Search

Databases

PostgreSQL | Oracle | MySQL | MongoDB Atlas | HBase | Intersystems Caché | Redis

Cloud & DevOps

AWS (EC2, S3, Cognito, VPC) | GCP | Azure | Docker | Railway | Heroku | Jenkins | GitHub Actions | CI/CD

Messaging & Integration

Apache Kafka | WhatsApp Business API | Meta APIs | n8n | REST | SOAP | GraphQL

Testing & QA

JUnit | Jest | Cypress | Selenium | JMeter | Postman | SoapUI | cURL

Tools & Management

Git | SVN | Jira | Redmine | Trello | IntelliJ IDEA | VS Code | DBeaver | Figma

Methodologies

Scrum | Agile | Micro-frontends | Microservices | Event-Driven Architecture | Domain-Driven Design | TDD

KEY STRENGTHS

- **Technical Leadership** ■ Experienced leading distributed teams, mentoring developers, and making strategic architecture decisions across startup and enterprise environments.
- **Entrepreneurship** ■ Built a product from zero to market as CTO & co-founder, managing everything from architecture design to client acquisition and delivery.
- **System Architecture** ■ Deep expertise designing scalable, multi-tenant platforms with microservices, event-driven systems, and AI-powered automation.
- **Cross-Functional Collaboration** ■ Proven ability to bridge technical and business stakeholders, translating complex requirements into actionable engineering roadmaps.
- **Continuous Learning** ■ Actively exploring cutting-edge AI technologies, options trading algorithms, and cloud-native patterns to stay ahead of industry trends.

NOTABLE PROJECTS

- **Closevibe AI Platform** ■ Designed and built a production multi-tenant conversational AI SaaS from scratch, handling automated sales conversations across WhatsApp and Messenger for e-commerce brands. Implemented FSM-based conversation flows, RAG with pgvector, and multi-model LLM orchestration.
- **White-Label Airline Platform (Flyr)** ■ Architected a modular micro-frontend system that reduced airline onboarding time by 60%, deployed across 4+ international carriers with brand-specific UIs sharing a unified codebase.
- **Similar Files Detector (ISERN + UPC)** ■ Developed an AI-powered document similarity engine in collaboration with the Polytechnic University of Catalonia for intellectual property analysis in the patent industry.
- **InGRID MDM (Indra)** ■ Built a national-scale energy metering data management platform for Uruguay's utility infrastructure, processing high-volume electrical measurement data using Hadoop/MapReduce/HBase.
- **Options Trading SaaS** ■ Personal project: designed and developed a full-stack options trading dashboard with Black-Scholes pricing, backtesting engine, FSM state management, and Interactive Brokers API integration.

PROFESSIONAL INTERESTS

Conversational AI & LLM applications • Cloud-native architecture • Quantitative finance & algorithmic trading • Open-source development • Startup building & product strategy • Big Data engineering • Technical mentoring & team leadership
